
1 MW POWER POD

- UPS/switchgear (1MW)
- Wall mount HVAC
- N+1 cooling redundancy
- Lithium Ion or VRLA batteries
- 5-minute battery run time
- Automatic Transfer Switch

CONFIGURATION OPTIONS

- UPS & switchgear sizing
- Expanded redundancy
- Battery room separation
- Extended battery run time
- Fire suppression systems
- Security & monitoring systems

ECONOMIC ADVANTAGES

- Efficient CAPEX deployment
- Scalable infrastructure design
- Reduced time and cost on-site
- Reduced local code restrictions
- Tax classification advantages
- Accelerated depreciation

DEPLOYMENT ADVANTAGES

- Plug and play site deployment
- Rapid volume deployment capability
- Single truck transport logistics
- Built to meet local code requirement
- Factory build parallel to site work
- Factory testing and commissioning
