

## HARMONIC FILTER MODIFICATION

Improve chiller performance with harmonic filter clean power solutions

## SOLUTION BENEFITS

- Harmonic filter solutions to improve chiller operating efficiency and performance
- Ideal for high density multi chiller deployment projects
- Addresses stringent precision power requirements for gov/mil applications
- Expand sales contribution value to increase project revenue and profits
- Augment your ability to compete and win with an expanded market offering
- Cost reductions due to the efficiencies of factory fabrication and integration

## SAMPLE CONFIGURATION
