

POWER PANEL MODIFICATION

Single point power connections for chillers, pump packages, and VFDs

SOLUTION BENEFITS

- Provide a single power panel connection for chiller, pumps and VFDs
- Flexible chiller or side mounted skid options to meet market requirements
- Reduce site installation time and cost with a single point connection
- Expand sales contribution value to increase project revenue and profits
- Augment your ability to compete and win with an expanded market offering
- Cost reductions due to the efficiencies of factory fabrication and integration
