

500KW RAPID DEPLOYMENT POWER POD

Perfect for rental and mobile applications

- UPS/switchgear (500KW)
- Lithium Ion or VRLA batteries
- Wall mount HVAC
- 5-minute battery run time
- N+1 cooling redundancy
- Automatic Transfer Switch

CONFIGURATION OPTIONS

- UPS & switchgear sizing
- Expanded redundancy
- Battery room separation
- Extended battery run time
- Fire suppression systems
- Security & monitoring systems

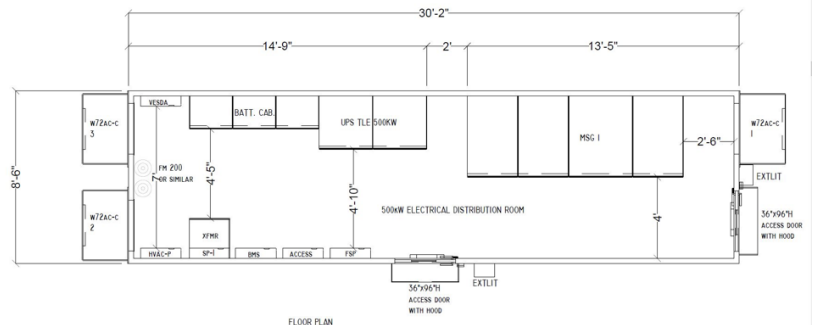

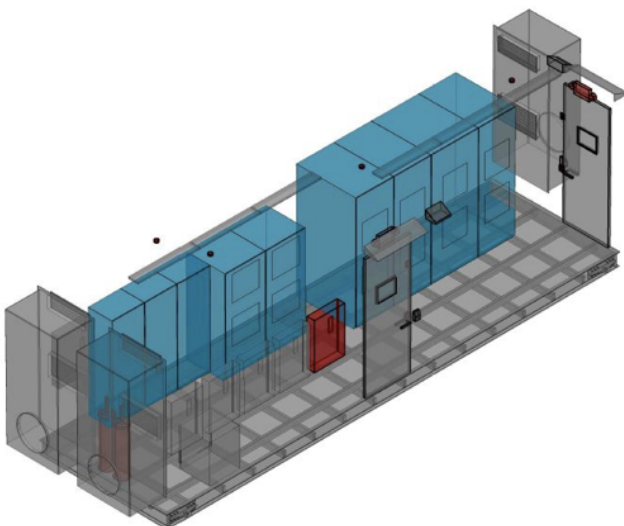

ECONOMIC ADVANTAGES

- Efficient CAPEX deployment
- Scalable infrastructure design
- Reduced time and cost on-site
- Reduced local code restrictions
- Tax classification advantages
- Accelerated depreciation

DEPLOYMENT ADVANTAGES

- Plug and play site deployment
- Rapid volume deployment capability
- Single truck transport logistics
- Built to meet local code requirement
- Factory build parallel to site work
- Factory testing and commissioning
